

Aloe Designs Joins Forces with Watershed Land Design

Vancouver, BC (February 17, 2009) – Aloe Designs is delighted to announce its partnership with Mike Dezell of Watershed Land Design. Now with Mike’s expertise in landscape construction, Aloe Designs is providing clients with complete landscape design and installation services.

Mike is trained as an arborist and is certified as Journeyman Horticulturist by the Province of British Columbia. With 12 years experience in the landscape construction industry, Mike specializes in residential construction and design; building walls and patios, decks and arbors, and irrigation and lighting systems.

“It is wonderful to join the talented team at Aloe Designs,” says Mike. “This partnership will strengthen each of our specialties and offer clients full-service, outdoor living solutions.”

Caitlin and Owen Black are the green thumb duo that founded Aloe Designs. Together they’ve taken their love of all things green and growing, and transformed that into a business that helps others be inspired by nature. Having been on both sides of the fence, working for landscape & design firms, they launched their own garden design company in 2006.

Over the past few years, Caitlin, Owen and Mike have worked together on many projects. Their shared appreciation for organic and sustainable resources is only one of the fundamentals behind this design alliance – a talented team ready to shape and transform any patio, balcony, landscaped yard, or rooftop.

About Aloe Design www.aloesdesigns.com

Aloe Designs is a Vancouver garden design group that creates outdoor living spaces to reflect the individuality of our clients. Our fresh approach transforms patios, balconies, landscaped yards or rooftops into garden sanctuaries. Our design team provides a full package from consultation and design, to installation. Through the process we are committed to sourcing organic and sustainable resources to rare, locally crafted goods. Move outdoors. Live outside.
