## Ring in Spring With Atlas Pots: Metro Vancouver's Headquarters for Quality and Stylish Container Gardening

**Vancouver, BC (April 27, 2009)** – With the arrival of spring, it's time to head to garden style experts Atlas Pots. They're the planter experts on improving garden and summer living spaces for the suburban patio or the greening of a Yaletown balcony.

"Our 4,000 square foot warehouse of contemporary, high quality planters, garden containers and pots is guaranteed to have a solution for the starting gardener and first time homeowner to the expert botanist," says Atlas Pots' owner Maninder Tennessey. "Atlas Pots has a style solution on hand for all your needs, and can provide planter solutions and tips to transform your outdoor space."

It's time to spring clean your approach to gardening practices - visit Atlas Pots for lessons and expert advice on:

**Choosing the Right Pots For You:** Atlas Pots grew out of a love of gardening and of design. Thriving on the incredible possibilities and versatility that garden containers offer, our team are experts in choosing the best planters for your space, and providing valuable tips on maintaining your plants and pots.

**Transforming Your Space:** Our garden experts give you advice on transforming your garden and punctuating your spaces with unique planters. Pots add style and will compliment the overall feel of your living space.

**Creating a Private Oasis:** Relax in your secluded and private green space. Screening tips and tricks will show you how to beautify your outdoors space while keeping nosy neighbours from peeking over the fence to see what's on the grill for dinner.

**Investing in durability and style:** Our commitment to finding great styles and quality sent us to Vietnam to source out some of the best fiberglass, fibrecrete, and terrazzo planters and fountains. Quality-and-style conscious, Atlas Pots is committed to providing planters that are highly durable, winter-proof, and crafted in modern designs. Pots can withstand the battering of West Coast weather, and remain beautiful and timeless throughout the spring and summer.
