deadmau5 reigns at the forefront of the electronic music scene in Canada and around the world. His live performances incorporate a laptop, a touch-screen Lemur and a mass of other cutting edge technologies while the artist wears one of his famous oversized foam mau5 heads complete with blinking LED eyes. deadmau5's ability to recreate his studio sounds in a live atmosphere, combined with his showman savvy, creates an experience that is truly electrifying.

"Vancouver will be treated to a world-class act that has gained international standing," says Alvaro Prol of Blueprint Events. "deadmau5 has scored top billing on Billboard magazine's Hot Dance Airplay chart, been nominated for a Grammy in the Best Remixed Recording category and claimed two Juno Awards, including *2009 Dance Recording of the Year* for "Random Album Title."

In 2007 and 2008, no dance producer in the world sold more digital singles than Canada's wonderkid known globally for creating music that transcends the charts. In a world of ever-evolving sounds, deadmau5 is constantly at the precipice of the global music scene; his signature style flawlessly blends all genres and appeals to every age. In true deadmau5 style this is the first concert to take place at the newly-built 2010 Olympic venue, UBC's Thunderbird Arena.
